

Terminal Busto Arsizio-Gallarate

The Terminal Busto Arsizio-Gallarate combines the strength of a solid structure for the road-rail transshipment with the advantage of a strategic position on the corridor Rhine-Alpine.

It is located in one of the major European economic areas, 20 km from Milan and 150 km from the port of Genoa. Its railway position is optimal thanks to the connections both to the north, via Luino, Domodossola and Chiasso, and to the rest of Italy. It is accessible directly via motorway and allows road vehicles to arrive easily to the trains and to move quickly on to their final destination.

The terminal was projected and realized according to the most state-of-the-art planning technologies, in order to combine efficient and quick work with safety and environmental protection.

Every day dozens of trains connect the terminal with destinations in Italy, Germany, the Netherlands, Belgium, Denmark, Spain and Switzerland and perform a relevant hub function within the European intermodal network.

Terminal Busto Arsizio-Gallarate

Technical data

Surface area	245,000 m ²
Storage surface	26,000 m ²
Crane modules	4
Gantry cranes	12
Max. crane capacity	40 t
Transported units	Containers from 20' to 45' Swap bodies Semitrailers
Shunting/line locomotives	6
Terminal tractors	6
Max. capacity per day	33 train pairs per day
Semitrailer parking area	295
Total tracks	35
Transshipment tracks	13 3 x 520-540 m 2 x 610 m 3 x 715 m 5 x 695-760 m
Tracks for shunting and parking from 500 m to 760 m	11
Maintenance tracks	5
Tracks for arrivals/departures	6
UIC code of Gallarate railway station	83 01030 6

Services

- ▶ Internal customs office
- ▶ Refreshment room
- ▶ Restrooms and showers for drivers
- ▶ Container charging station

Additional services

- ▶ Customs weighing
- ▶ Warehouse
- ▶ Parking area

Opening hours

Monday	05:00 - 24:00
Tuesday-Friday	00:00 - 24:00
Saturday	00:00 - 11:45
