

# Terminal Pordenone

The strategic position at the junction between the Adriatic-Baltic and Mediterranean corridors offers an optimal railway location with connections to northern Europe, to south-east Europe, Russia, CIS countries and Far East, and to the rest of Italy.

The terminal is located inside the interport of Pordenone which offers logistical services. It can be reached directly from the motorway, allowing road vehicles to easily access trains and to quickly continue their journey to their final destination.

## Technical data

Surface	103,000 m <sup>2</sup>
