The Hungarian Forwarders' Day, one of the most important annual meetings of the domestic transport and logistics industry, will be held again between 6 and 7 May 2026.

The aim of the Visegrád conference is to provide a comprehensive picture of the current situation of the sector, with particular attention to market trends, intermodality, energy and HR challenges, and the role of robotics and artificial intelligence.

Planned Program

Wednesday, May 6, 2025
